This pastry-themed cultivar was created by crossing 'Apple Fritter' (Sour Apple x Animal Cookies) with 'Face Off OG BX1' (#32 x Face/Off OG x Face/Off OG). It is an indica-dominant hybrid that will have you primed for a wind-down. It's perfect for nighttime use. Fritter Licker is part of a relatively fresh seed launch from Archive Seeds that includes Face/Off OG genetics as the focal point for each new cultivar. It is highlighted by a distinct toffee apple taste. But don't let its 'new-kid-on-the-block' status trick you: this treat packs a punch. The most abundantly found terpenes here are: Limonene & Myrcene. THC 20.1% / *Indica-Dominant Hybrid*

Bred by LIT Farms, Project 007 is another premier, 'no-longer-top-secret' strain in our lineup. Its thunder comes from solid genetics and you can be sure it's always on the ball. Your mission is to investigate and uncover all the amazing effects contained within these buds. So, canna-curious special agents... are you ready for your briefing? Because this one's got a license to thrill both newcomers and connoisseurs alike. For your natural wellness only: created by crossing Cookies' famous 'London Pound Cake 75' with Grandiflora Genetics' elusive 'Project 4516' – this cultivar is an Indica-dominant hybrid which features an abundance of beneficial terpenes such as Pinene, Limonene, Linalool, and Myrcene. THC 19.3% / *Hybrid*

Coming via the infamous Aficionado Seeds, the Sangria strain first hit the NorCal cannabis scene and quickly became an instant classic. Its fruity profile, exotic appearance, robust heritage, and uplifting effects have made it a favorite for adventure-seeking smokers of all types. It was bred through the crossing of 'Forbidden Fruit' with the 5x Emerald Cup-Winning 'In The Pines' and 'Pineapple Thai' – creating an entirely new bouquet – which is known for its high yield and versatility throughout various climates. The Sangria plant is a very tall, very large, early-finishing purple sativa (shown to contain THC, CBD, & CBG). THC 13.2%-16.5% / *Sativa*

It was created by crossing 'Platinum' (UW Hashplant x Perma Frost) with 'OGKBV2.1' (OGKB x DoSiDos). Platinum Kush Breath is an indica-dominant hybrid that is sure to please every Kush lover. Its THC percentage is high, its parents are heavy-hitters, so believe us when we say... this one's for the experienced connoisseur. Platinum Kush Breath is known far and wide for its pure gassy flavor/aroma. The main terpenes found in this cultivar are: Myrcene & Limonene. Have you been searching for a new cannabis experience that will have you basking in that indica glow? Search no longer and behold this pungent, top-tier selection. THC: 25.2% - TAC: 28.2% / *Indica-Dominant Hybrid*

This potent hybrid was created by crossing 'Blue Cookies' (Girl Scout Cookies x Blueberry) with 'Georgia Pie' (Gelatti x KM11). As you can probably already tell from this lineage, Blue Slushie is a pungent variety with gassy notes of minty Kush bursting from its buds, enticing you into sparking up a balanced blend of naturally delightful wellness. Behold! Blue Slushie's fresh aroma is famous throughout canna-land. The main beneficial terpenes found in this cultivar are Limonene, Caryophyllene, & Myrcene. It's a real crowd-pleaser. Come check out our Blue Slushie buds when you're visiting LRP – spark one up and you won't be disappointed when you experience an uplifting & fragrant rush of fruity dankness! THC 21.7% / *Indica-dominant Hybrid*

Initially grown by the stellar Lit Farms, Jordanz is a balanced strain that will have you soaring like Michael Jordan iconically dunking from the free throw line. Keeping with the 'pro basketball legend' motif, this strain was bred by crossing Cookies' infamous 'Gary Payton' (Y Griega x Snowman) with Leafly's 2020 Strain of the Year, 'Runtz' (Zkittlez x Gelato). This 50/50 hybrid is a tried-and-true powerhouse. THC 19.3% / *Hybrid*
