

# SCROOGE

## Indica Hybrid

## Learn more about Scrooge

Introducing Scrooge, an Indica hybrid cultivar created by the acclaimed Compound Genetics. This exceptional cultivar blends the award-winning Jokers 31 with The Menthol, offering a sensory experience that's both exciting and soothing.

If you enjoy rich, gas-laden profiles, Scrooge is perfect for you. Its lineage includes popular cultivars like White Runtz, Jet Fuel Gelato, Gelato 45, White Diesel, High Octane, and Jet Fuel, bringing together sweet, gassy flavors with a refreshing menthol touch.

Scrooge features striking bluish hues and a shiny layer of trichomes. The dominant terpenes—Limonene, Linalool, and Beta-Caryophyllene—contribute to its sweet aroma and relaxing effects. Expect a soothing experience with potential relief from stress and anxiety, as well as a calming body high that may help with sleep. Whether you're new to cannabis or a seasoned enthusiast, Scrooge offers a memorable experience you won't want to miss.
