

# COTTON CANDY LOBSTER

COTTON CANDY LOBSTER

Cotton Candy Runtz × Blue Lobster | Bred by Cipher Genetics Cotton Candy Lobster is a vibrant hybrid that blends nostalgic sweetness with bold New England roots. This flavorful cross of Cotton Candy Runtz and the award-winning Blue Lobster delivers a mouthwatering profile of spun sugar, ripe berries, and just a trace of gas on the finish.

Buds are smaller in size but packed with personality—dense and resin-rich with blue undertones and a snowy layer of white trichomes. The Runtz influence shows in structure, while the Blue Lobster lineage brings added depth and regional pride. Powered by Linalool, Myrcene, and Limonene, this hybrid offers a well-rounded experience that leans toward relaxation with just enough uplift to stay engaged. Ideal for afternoon or early evening enjoyment.
